Neal Muluta Waga
SOFTWARE DEVELOPER

PERSONAL PROFILE

A dedicated software developer and analytical problem solver. I aspire to use the skills I have to make impactful changes in the world using technology. I am creative when crafting effective websites, applications and platforms to propel competitive advantage and secure revenue growth. I find that the best programming experience is gained by working with other people, hence I am a team player. I am self-driven and able to work independently and unsupervised.

WORK EXPERIENCE

Software Engineer Intern | Netbot Solutions Limited | March 2023 - Present

Working on a visitor management system that various companies will use to replace the conventional visitor record with a medium that is more accessible.
- Tasked with developing the backend using Python & Django.
- Creating the APIs using Django REST Framework.
- Using Dart and Flutter to develop the mobile application.
- Conducting assessments and numerous tests to improve the overall user experience of the application.

HR & Developer Intern | KURA | March 2021 – May 2021

Exposed to a company where I could get hands on experience and know my expectations as an intern in the job market.

- Learning from my mentors and simultaneously covering over 40% MIT coursework on computer engineering.
- Leveraged my knowledge of HTML, CSS and JavaScript to develop 2 front-end applications.
- Updated databases to capture staff certificates, engineering project reports and training assessment forms.
